

HRMS – Feature Requirement Report

1) Creation & Management of HOD Through HRMS Handler

1.1 Create HOD Function

- In the **HRMS Handler dashboard**, a button titled “**Create HOD’s**” will be available.
- When clicked, it will open a form containing all required information fields similar to the existing **Employee Creation** form (Name, Department, Contact Info, etc.).
- After submission, the new HOD entry appears in the HOD table.

1.2 HOD Table

A table will display all HOD-related data.

Columns may include:

- HOD ID
- Name
- Department
- Email
- Assigned Employees Count
- Actions

1.3 HOD Action Buttons

For each HOD row, the following buttons will be visible:

- **Create HOD**
- **Edit HOD**
- **Delete HOD**
- **Assign Employee**

1.4 Assigning Employees to HOD

When clicking **Assign Employee**:

1. A dropdown container appears with:
 - **Dropdown 1:** Select the **HOD**
 - **Dropdown 2:** Shows **all unassigned employees** (Name + ID)

2. When an employee is selected:
 - A table appears below showing **all employees assigned to that selected HOD**.
 3. For every assigned employee, show an **Unassign** button on the right.
 4. Clicking **Unassign**:
 - Removes the employee from that HOD
 - Sends them back to the **Unassigned Employees List**
-

2) Creation & Management of Director Through HRMS Handler

2.1 Create Director Function

- In the **HRMS Handler**, a button titled “**Create Director’s**” will be available.
- Clicking it will open a form similar to the Employee Creation form.
- Upon saving, the Director will appear in the Directors table.

2.2 Director Table

The table will display:

- Director ID
- Name
- Department / Division
- Assigned HOD Count
- Assigned Employee Count (if applicable)
- Actions

2.3 Director Action Buttons

Each Director row will include:

- **Create Director**
- **Edit Director**
- **Delete Director**
- **Assign HOD**

- **Unassigned Employee** (to show employees not under any HOD/Director)

2.4 Assign HOD to Director

On clicking **Assign HOD**:

1. Dropdown 1: Select the **Director**
2. Dropdown 2: Shows **all unassigned HODs + unassigned employees**

2.5 Assigned HOD Table

After selecting a HOD:

- A table appears showing all **HODs assigned to the selected Director**
 - Each row includes an **Unassign** button
 - Clicking **Unassign** sends the HOD back to **Unassigned HOD list**
-

3) Leave Request Workflow

3.1 Employee → HOD

- Employees must only send leave requests to **their own assigned HOD**.
- System should **restrict sending leave requests to other HODs or any Director directly**.

3.2 HOD → Director

- HODs can send leave requests only to **their assigned Director**.
- System must **prevent sending to other Directors**.

Leave approval chain:

Employee → HOD → Director → HR (optional based on policy)

4) Attendance Upload Module
